Use Dreamweaver to Connect to Student FTP Server

You must establish a UMass Lowell virtual private network (VPN) connection before connecting to student FTP server (ceweb2.uml.edu). For more information on VPN configuration go to https://www.uml.edu/it/services/get-connected/remote-access or contact the help desk at 978-934-4357.

Site Configuration

1. Select "Servers"
2. Click the plus icon and enter the following:
   o Server Name: Student FTP
   o Connect using: FTP over SSL/TLS (implicit encryption)
   o FTP Address: ceweb2.uml.edu
   o Port: 990
   o Username: Your student email
   o Password: [hidden]
   o Root Directory: [hidden]
   o Web URL: [hidden]
   o Authentication: Trusted server

   Use Passive FTP
   Encrypt only command channel
   Encrypt only username and password
   Use IPv6 Transfer Mode
   Use FTP performance optimization
   Use alternative FTP move method
Password: Your student email password
Web URL: https://ceweb2.uml.edu/
Authentication: Trusted server

More Options

1. Check "Use Passive FTP"
2. Check "Use IPV6 Transfer Mode"
3. Check "Use FTP performance optimization"

How do I view the web pages I've uploaded?
Note: Your homepage must be named "index.htm" or "index.html"

1. Start your web browser (Edge, FireFox, Google Chrome etc.).
2. Enter the following web address:
   https://ceweb2.uml.edu/username*/index.html
   *Your username is the first part of your student email before @ sign.

   Example: If Rowdy Riverhawk is taking a class, they would
type in: https://ceweb2.uml.edu/rowdy_riverhawk/index.html

You must be on UMass Lowell’s VPN before you can view your web pages on
the FTP server.

Can I get help with this if I'm having trouble?

If you have trouble uploading your files, speak to your instructor, call 978-934-2467 or email
onlinelearning@uml.edu for Tech Support.
